RE: DOCKET NUMBER 98P-0151/cpi

Dear Commissioner:

I very much support the above referenced petition  
that stops the slaughter of downed animals and subsequent  
use of their flesh for food. As I understand it, a  
downed animal is considered "diseased", and federal  
law prohibits the slaughter of diseased animals for  
human consumption. The law should be extended to include  
any kind of animal consumption, but, nonetheless, it can  
be within your jurisdiction to at least ban the C2053  
slaughter and use of downed animals for human food. This  
is a critical health issue of mass proportion. Please act  
appropriately on behalf of our carnivorous population.

Thank you

Christi Insull
